

Dropping a Class

1. In order to drop a student the user must navigate to Student Management -> Office ->Current Scheduling -> Entry by Student. Click on **"Entry by Student"**

2. On the Entry by Student screen select the student you would like to drop and then click on the arrow to expand the student options. Locate the schedule for the student, in this example we will be using 2013-2014 Schedule. Click the arrow to expand the options for this drop down.

- When you press the arrow the user will be able to see the schedule of the student and also the options on the left hand side of the periods. To drop the student from any of the courses, select the “D” that corresponds with the course. For this example we will be dropping the Algebra I course.

When you select “D” you will be given this prompt.

Delete or Drop/Inactivate This Class?

There are No Grades Present.

Do you wish to Delete or Drop/Inactivate Class 300AL1/003 for Omar G Dejarnettescr?

Delete Drop Cancel

You may be prompted to either Delete or Drop the class if there are no grades present. If you choose to delete it, there will be no more transaction connecting the student to the section of that course. Also note if there is a warning about an effective date as well. A drop will keep a transaction record of the student's enrollment in the course. This means it may pull for state reporting and the class could be more easily reactivated for the student.
